1.

1.1. Open Office Impress Demo

- This is a short presentation
- Written in Open Office Impress
- Designed to illustrate the integration of Open Office Impress files in SAAFE-D delivered learning objects
- This will document illustrates most of Open Office Impresses features

These are the notes for the first slide.

This is a short Open Office Impress presentation that is intended to illustrate the inclusion of Open Office Impress file in SAAFE-D delivered learning objects.

2.

2.1. Supported Features

- This presentation is intended to illustrate most of the features of Open Office Impress
- It can be used to check which features are supported by SAAFE-D
- If you find a feature is not in this presentation please feel free to add it

So far very few few features within Open Office are supported. This document is intended to help identify features that are and are not supported.

This presentation has slides that illustrate the many features of Open Office. Each slide describes the functionality being displayed in that slide. Thus users should be able to navigate through this presentation in order to see which features are supported.

If you see a feature is missing from this presentation please feel free to add it.

3.

3.1. Two Bullet Lists

- This is the first bullet list
- It should appear on the left of the slide
- This is the second bullet list
- It should appear on the right of the slide

4.

4.1. Formatting

- This bullet is in normal text
- Bold text
- Italic
- Underlined
- Red

5.

5.1. An Embedded Graphics Item

6.

6.1. Slide Backgrounds

- We can insert a slide background
- It will be displayed in both the miniature and slide views
- FIXME: As you can see this doesn't quite work yet since the bullets are not displayed on top of the background
