

Survey: Apache CXF Survey

Report: Default Report

Survey Status		Respondent Statistics		Points Summary
Status:	Live	Total Responses:	135	No Points Questions used in this survey.
Deploy Date:	08/23/2010	Completes:	135	
Closed Date:		Partials:	0	

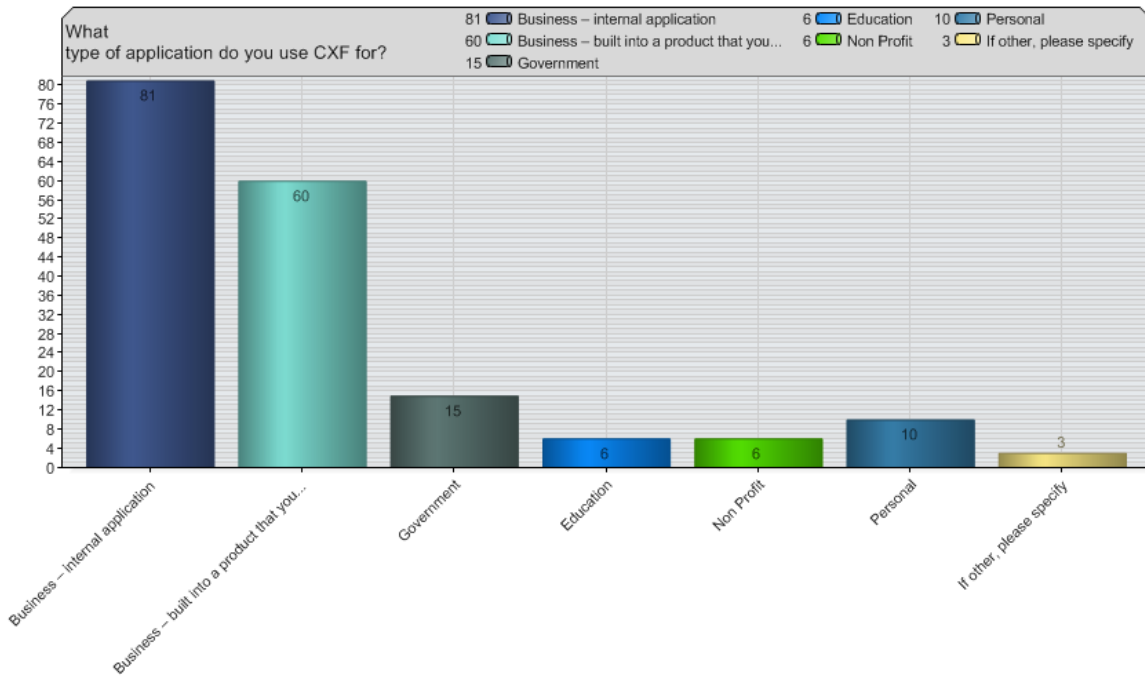

1. How long have you been using Apache CXF?

	Responses	Percent
Less than a year: 	48	35.56%
1-2 years: 	49	36.3%
3-5 years: 	34	25.19%
More than 5 years: 	4	2.96%
Total Responded to this question:		135 100%
Total who skipped this question:		0 0%
Total:		135 100%

2. What type of application do you use CXF for?

	Responses	Percent
Business – internal application:	81	60.45%
Business – built into a product that you sell:	60	44.78%
Government:	15	11.19%
Education:	6	4.48%
Non Profit:	6	4.48%
Personal:	10	7.46%
If other, please specify:	3	2%
Total Responded to this question:		134 99.26%
Total who skipped this question:		1 0.74%
Total:		135 100%

2. What type of application do you use CXF for?

Response	Comments
1	Research
2	Business – external application
3	Business

3. If you answered "Business" above, what kind of business is your company in?

	Responses	Percent
Manufacturing:	6	4.8%
Producing Software:	39	31.2%
IT Consulting or Service:	39	31.2%
Retail or online Retail:	5	4%
Telecommunication:	16	12.8%
Financial:	29	23.2%
If other, please specify:	19	15%
Total Responded to this question:		125 92.59%
Total who skipped this question:		10 7.41%
Total:		135 100%

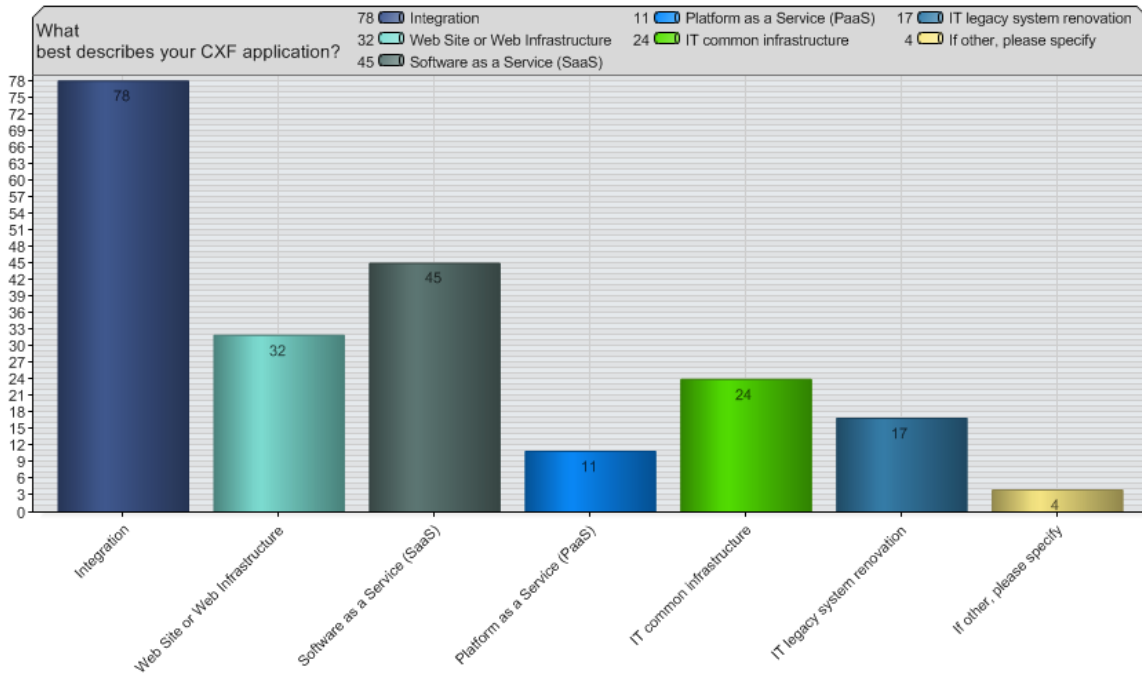

3. If you answered "Business" above, what kind of business is your company in?

Response	Comments
1	Pharmaceutical
2	Multi Industry: Oil & Gas, Hotel/Hospitality, Ski Resorts, Cattle Ranching
3	government
4	Media
5	Pharmaceutical
6	Publishing
7	general information systems
8	Energy & Utilities
9	Entertainment
10	Insurance
11	Assessment
12	Real Estate Platform
13	Transportation
14	IT Consulting or Service
15	Entertainment
16	Marketing, Primary Produce Testing

17	Health Care
18	insurance
19	publishing

4. What best describes your CXF application?

	Responses	Percent
Integration:	78	59.54%
Web Site or Web Infrastructure:	32	24.43%
Software as a Service (SaaS):	45	34.35%
Platform as a Service (PaaS):	11	8.4%
IT common infrastructure:	24	18.32%
IT legacy system renovation:	17	12.98%
If other, please specify:	4	3%
Total Responded to this question:		131 97.04%
Total who skipped this question:		4 2.96%
Total:		135 100%

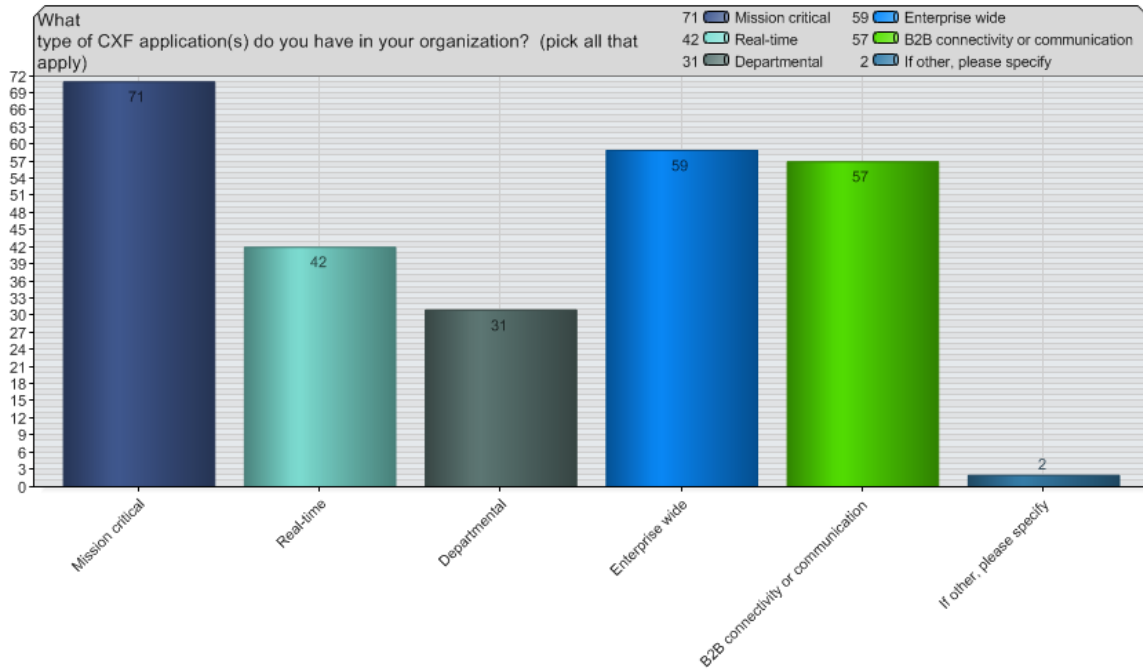

4. What best describes your CXF application?

Response	Comments
1	Complex communication between our Desktop App and WS
2	3rd party API into proprietary system
3	Integration
4	Realtime Data Provider

5. What type of CXF application(s) do you have in your organization? (pick all that apply)

	Responses	Percent
Mission critical:	71	56.8%
Real-time:	42	33.6%
Departmental:	31	24.8%
Enterprise wide:	59	47.2%
B2B connectivity or communication:	57	45.6%
If other, please specify:	2	1%
Total Responded to this question:		125 92.59%
Total who skipped this question:		10 7.41%
Total:		135 100%

5. What type of CXF application(s) do you have in your organization? (pick all that apply)

Response	Comments
1	None internally
2	Mission critical

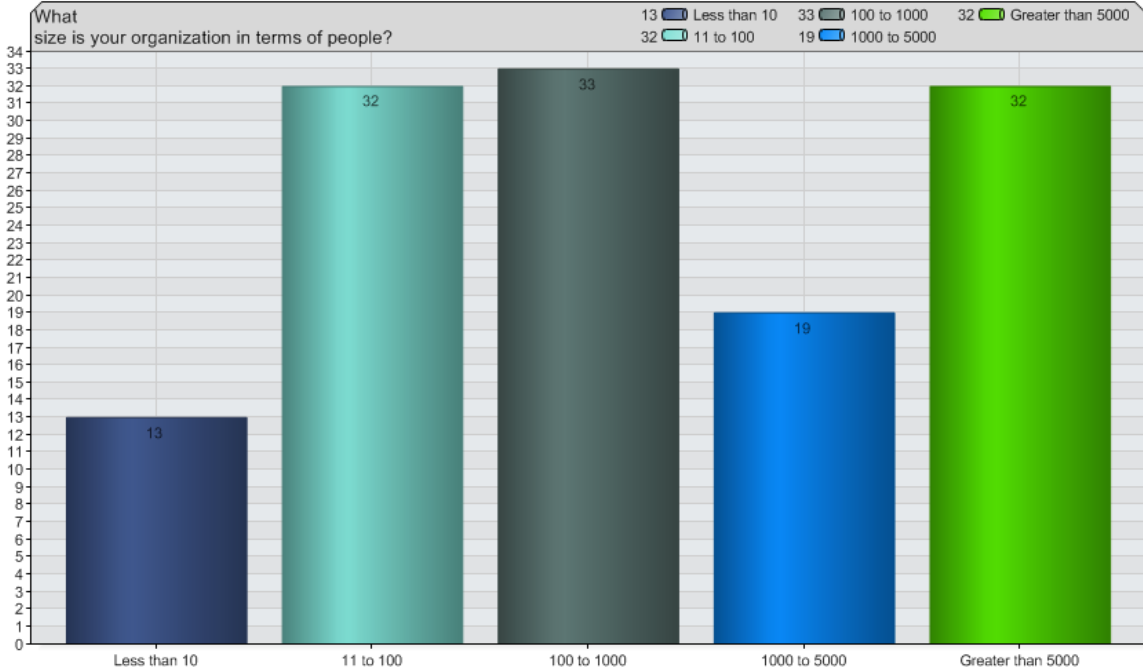

6. What size is your organization in terms of revenue?

	Responses	Percent
Non-profit or Government:	17	13.28%
Less than \$1M:	16	12.5%
1 to 10M:	22	17.19%
10 to 50M:	13	10.16%
50 to 100M:	12	9.38%
100 to 500M:	14	10.94%
500 to 1B:	11	8.59%
Greater than 1B:	23	17.97%
Total Responded to this question:		128 94.81%
Total who skipped this question:		7 5.19%
Total:		135 100%

7. What size is your organization in terms of people?

	Responses	Percent
Less than 10:	13	10.08%
11 to 100:	32	24.81%
100 to 1000:	33	25.58%
1000 to 5000:	19	14.73%
Greater than 5000:	32	24.81%
Total Responded to this question:		129 95.56%
Total who skipped this question:		6 4.44%
Total:		135 100%

8. How many applications use CXF in your organization?

	Responses	Percent
1 to 5:	82	65.08%
6 to 10:	18	14.29%
10 to 30:	19	15.08%
30 to 50:	3	2.38%
Greater than 50:	4	3.17%
Total Responded to this question:		126 93.33%
Total who skipped this question:		9 6.67%
Total:		135 100%

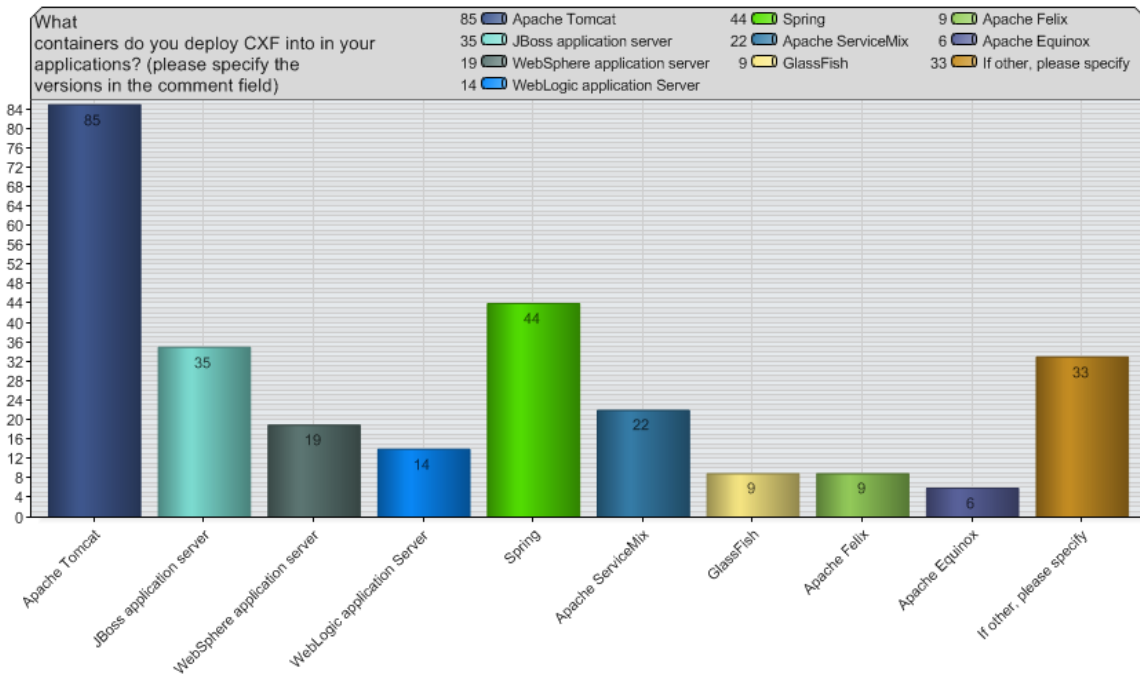

9. How many CXF end points do have in your organization?

	Responses	Percent
Less than 10:	42	33.87%
10 to 50:	59	47.58%
50 to 100:	13	10.48%
100 to 500:	6	4.84%
Greater than 500:	4	3.23%
Total Responded to this question:		124 91.85%
Total who skipped this question:		11 8.15%
Total:		135 100%

10. What containers do you deploy CXF into in your applications? (please specify the versions in the comment field)

	Responses	Percent
Apache Tomcat:	85	64.39%
JBoss application server:	35	26.52%
WebSphere application server:	19	14.39%
WebLogic application Server:	14	10.61%
Spring:	44	33.33%
Apache ServiceMix:	22	16.67%
GlassFish:	9	6.82%
Apache Felix:	9	6.82%
Apache Equinox:	6	4.55%
If other, please specify:	33	25%
Total Responded to this question:	132	97.78%
Total who skipped this question:	3	2.22%
Total:	135	100%

10. What containers do you deploy CXF into in your applications? (please specify the versions in the comment field)

Response	Comments
1	Jetty
2	Pramati Server
3	Tomcat 6 JBoss 5.1
4	tomcat 6.x Spring 2.5.x smx 4.2.x
5	6.1
6	Jetty
7	Jetty
8	Will soon include Felix.
9	Jetty
10	Jetty 7.1.x

If other, please specify:	11	13%
Total Responded to this question:		81 60%
Total who skipped this question:		54 40%
Total:		135 100%

15. What other service frameworks do you use in your organization?

Response	Comments
1	None
2	Tuscany
3	IBM generated
4	.net webservices
5	Spring MVC, WebSphere
6	Jersey
7	jax-ws ri
8	Axis
9	Jersey
10	Xfire
11	jbossESB

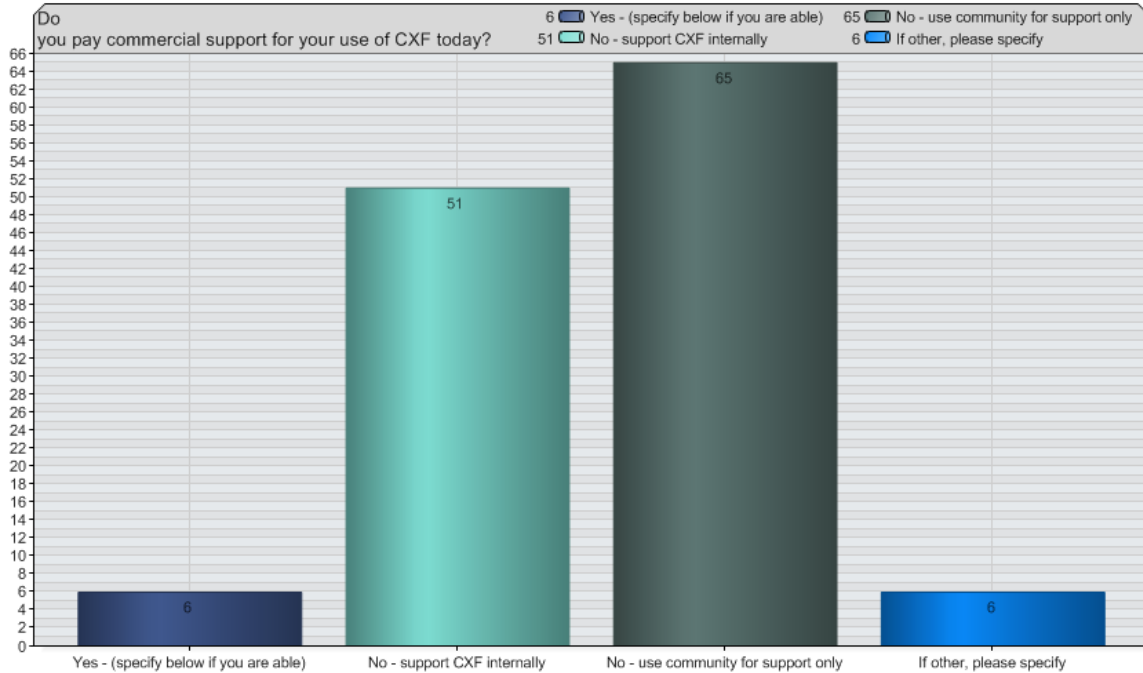

16. Rate how the following would have helped you most in successfully using CXF?

	Extremely Important	Very Important	Neutral	Not Important	Not at All Important	Total
Documentation:	71(55.47%)	52(40.62%)	4(3.12%)	0(0%)	1(0.78%)	128
Tutorials:	43(33.59%)	58(45.31%)	25(19.53%)	1(0.78%)	1(0.78%)	128
Getting Started guide:	29(23.39%)	58(46.77%)	36(29.03%)	0(0%)	1(0.81%)	124
Documented Examples:	51(40.16%)	62(48.82%)	11(8.66%)	2(1.57%)	1(0.79%)	127
Training classes:	7(5.51%)	15(11.81%)	44(34.65%)	43(33.86%)	18(14.17%)	127
Instructional video:	7(5.6%)	13(10.4%)	36(28.8%)	28(22.4%)	41(32.8%)	125
Total Responded to this question:					129	95.56%
Total who skipped this question:					6	4.44%
Total:					135	100%

17. Do you pay commercial support for your use of CXF today?

	Responses	Percent
Yes - (specify below if you are able):	6	4.69%
No - support CXF internally:	51	39.84%
No - use community for support only:	65	50.78%
If other, please specify:	6	4.69%
Total Responded to this question:		128 94.81%
Total who skipped this question:		7 5.19%
Total:		135 100%

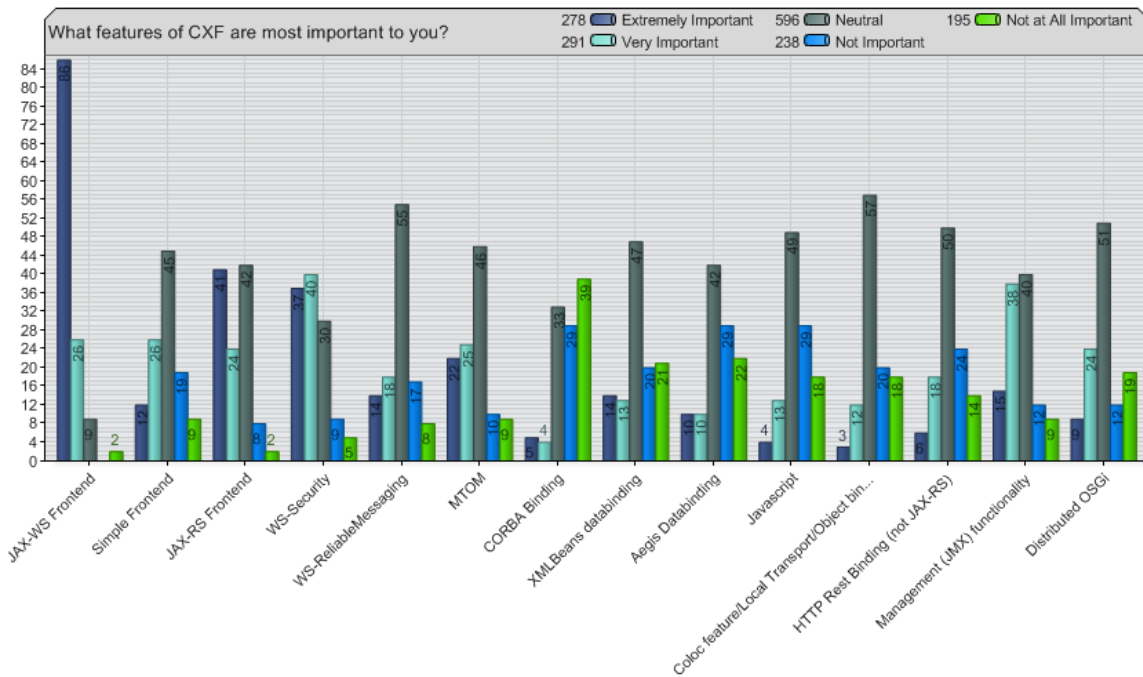

17. Do you pay commercial support for your use of CXF today?

Response	Comments
1	JBoss Web Framework Kit
2	We provide support for CXF
3	Provide commercial training.
4	Via RedHat license
5	FUSE
6	jboss support - since cxf will be part of it.

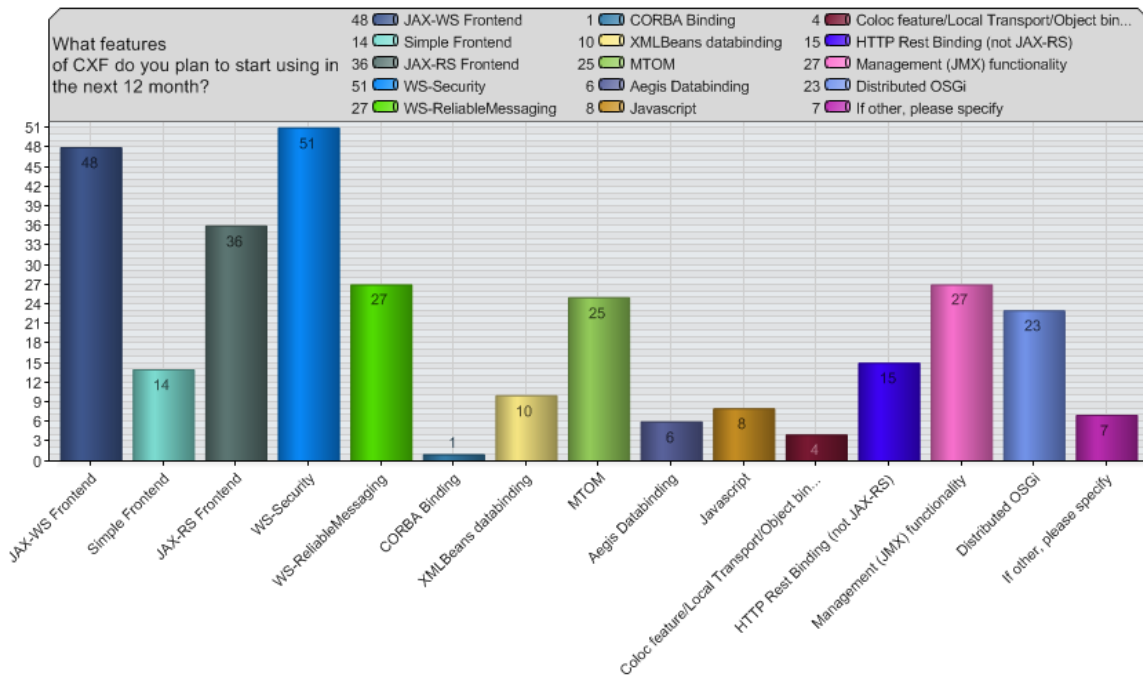

18. What features of CXF are most important to you?

	Extremely Important	Very Important	Neutral	Not Important	Not at All Important	Total
JAX-WS Frontend:	86(69.92%)	26(21.14%)	9(7.32%)	0(0%)	2(1.63%)	123

Total:					135	100%

22. In which of the following areas do you see room for improvement in CXF?

	Responses	Percent
Security:	42	38.89%
Interoperability/WS-* standards support:	37	34.26%
Logging/Monitoring:	53	49.07%
Management:	37	34.26%
Performance:	35	32.41%
Less external dependencies:	47	43.52%
OSGi:	20	18.52%
If other, please specify:	11	10%
Total Responded to this question:		108 80%
Total who skipped this question:		27 20%
Total:		135 100%

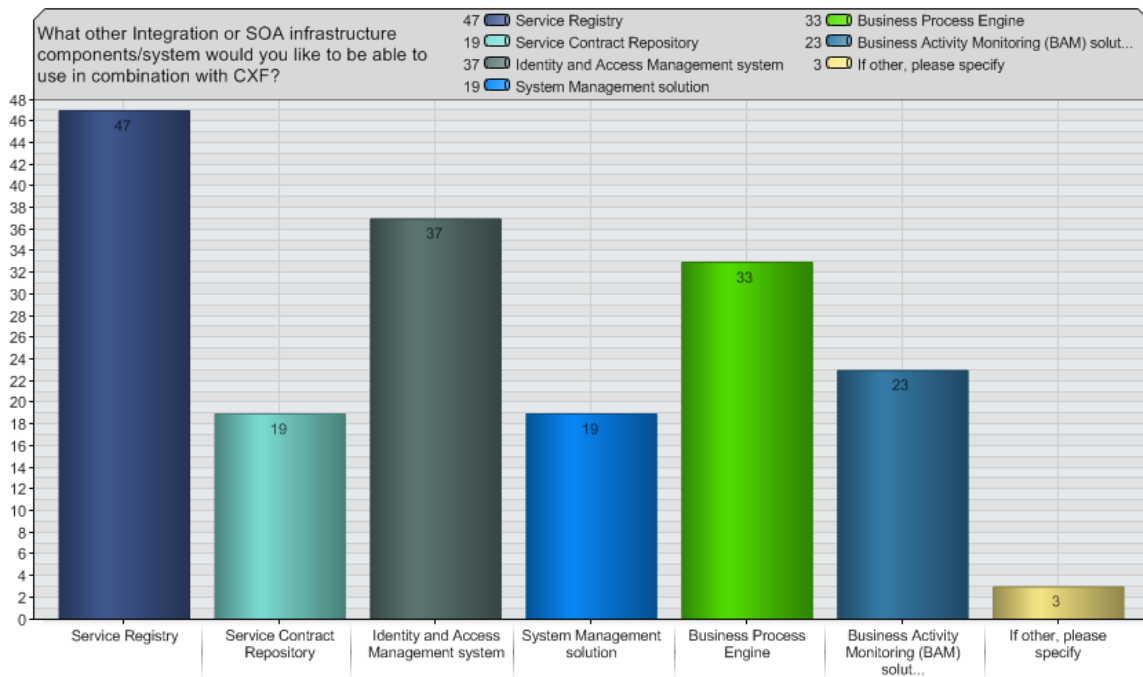

22. In which of the following areas do you see room for improvement in CXF?

Response	Comments
1	simplicity
2	No suggestions at this time.
3	REST features, don't concentrate on darn SOAP
4	smart cards
5	Remove spring
6	JAX-RS compatibility, WADL support, quality of documentation
7	Security
8	Cleaner dependencies rather than less external, slf4j would be an improvement
9	documentation
10	better deployment in webapp servers (weblogic, websphere,) : currently it is a real nightmare
11	better deployment in webapp servers (weblogic, websphere,) : currently it is a real nightmare

23. What other Integration or SOA infrastructure components/system would you like to be able to use in combination with CXF?

	Responses	Percent
Service Registry:	47	53.41%
Service Contract Repository:	19	21.59%
Identity and Access Management system:	37	42.05%
System Management solution:	19	21.59%
Business Process Engine:	33	37.5%
Business Activity Monitoring (BAM) solution:	23	26.14%
If other, please specify:	3	3%
Total Responded to this question:		88 65.19%
Total who skipped this question:		47 34.81%
Total:		135 100%

23. What other Integration or SOA infrastructure components/system would you like to be able to use in combination with CXF?

Response	Comments
1	ESB
2	DI
3	Business Process Engine

24. Which system management solution (if any) would you like to use with CXF?

	Responses	Percent
HP OpenView:	15	23.08%
IBM Tivoli:	13	20%
BMC:	4	6.15%
Nagios:	27	41.54%
Hyperic HQ:	24	36.92%

25. Please leave a comment or suggestion for the Apache CXF project members that will help them continue to evolve and improve CXF for your needs.

Response	Response Text
1	A general guide on how to improve performance would be great. Currently digging through the mailing list, but it would be nice to have those kind of tips all in one place.
2	Thanks for the great work !
3	Very grateful for the quality and ease of use.
4	Kudos to you all! Great job, continue evolving, increase commiter base, must required thing to motive contributors, mailing list responders.
5	Please keep it modular and simple as it currently is. We only use CXFServlet to publish SOAP webservice, and the CXF simplicity is TREASURED! We need nothing special, just easy to use JAXWS, and CXF gives us that without making our lives complicated. Thats why we love it!
6	Keep up the good work. I believe apache cxf is on of the best service framework :)
7	You are doing great job guys!
8	hello new features should be documented more for example, for the Logging annotation, I had to grep into svn checkout to find a sample, because http://cxf.apache.org/docs/annotations.html has no sample cheers
9	Great product. It should be great a client lib without Spring dependencies.
10	More documentation!
11	Thanks for making CXF available
12	Always always always think about the user, and how CXF can make their life easier. CXF is a great product *today*: it should invest in ease of use as a priority, and only do deeper tech standards if there really is a demand for it. On that note, should we look to making CXF more usable in non-Spring environments? What happens in a world 'after spring'?
13	Just keep up to good work!!!
14	thanx, cxf is just great
15	dfgdg
16	please provide us newbies, a more user friendly tutorials and documentation. Thanks
17	Great going so far. Keep it up.
18	Please improve the XMLBeans bindings :)
19	good work, just better documentation, user guides, and tighter IDE integration.
20	the docs are too rough for a new user. i have a simple problem to change the port number in the .wsdl created by java2ws an i cannot find any help to do this. this should be possible?
21	Thank you very much. You're doing a great work.
22	We use CXF on the server side mainly for the JAX-RS implementation, so the JAX-RS functionality of the project is most important. However we picked CXF over other frameworks (REStEasy, Restlet, etc.) because of the great JAX-WS support which we also use to a lesser extent. We still use HttpClient as our RESTful client, and don't plan to switch to the CXF client until or unless JAX-RS defines a client API. This is for a large US Government agency.
23	Keep up the excellent work. How about having a (simple) certification path for CXF users similarly to what Springsource does for the spring framework? One cert for programmers, one cert for architecture level knowledge, etc? This gives CXF a certain credibility in management (we'll use this, our guys are certified for it), makes programmers happy (good for the CV), and it's a small additional revenue stream for you.
24	The tutorials appear to be good, but was not-at-all useful for me. I just tried to do a standalone Java client for webservice. Please see SO query: http://stackoverflow.com/questions/3666574/standalone-java-webservice-client/3666840#3666840 No proper information or support available.
25	The tutorials appear to be good, but was not-at-all useful for me. I just tried to do a standalone Java client for webservice. Please see SO query: http://stackoverflow.com/questions/3666574/standalone-java-webservice-client/3666840#3666840 No proper information or support available.
26	do your job :)
27	more WS-* standars for example WS-Transaction support , WS-BusinessActivity
28	I would highly recommend instituting a lifecycle per artifact release policy so its possible for people to easily extend/patch cxf and provide patches. There are many features in 2.3 that could already be in two if the artifacts were more independent.
29	Keep up the good work!

30 Great product! I'd like to see more WSDL configuration options through annotations.
31 thanks for building and providing support.
