Releases may be downloaded from Apache mirrors: [Download](#)

On the mirror, all recent releases are available, but are not guaranteed to be stable. For stable releases, look in the stable directory.

2. 8 November, 2009: release 0.3.0 available

This is the first public release of Chukwa. You can get it from [the Apache distribution mirrors](#).

See the [Chukwa 0.3.0 Release Notes](#) for details. Alternatively, you can look at the [Jira issue log for all releases](#). Note that we've been updating the documentation, in response to early user feedback. You should consult the [Apache](#) copy of the documentation, rather than the copy included with the release.
