Who We Are

Table of contents

1 Apache Hadoop Project Members

We ask that you please do not send us emails privately asking for support. We are non-paid volunteers who help out with the project and we do not necessarily have the time or energy to help people on an individual basis. Instead, we have setup mailing lists for each module which often contain hundreds of individuals who will help answer detailed requests for help. The benefit of using mailing lists over private communication is that it is a shared resource where others can also learn from common mistakes and as a community we all grow together.

2 Hadoop PMC

The Hadoop Project Management Committee contains (in alphabetical order):

username	name	organization	roles	timezone
aajisaka	Akira Ajisaka	NTT DATA		+9
acmurthy	Arun C Murthy	Hortonworks		-8
