- Homepage http://qa.openoffice.org

About QA on OpenOffice.org

- Confirming and discussing issues
- Doing automated tests
  - > By using the GUI based testtool application
  - > By using 'qadevOOo' API based test environment using C/C++, Java, Python or Basic
- Advice people within the QA mailing list how to proceed
- Localization testing (working together with native language teams) and working on test cases within the test case management (TCM) portal on http://www.sunvirtuallab.com/tcm2/opensource/tcm_login.cgi?tcm_config=newooo
Project Activities
