	Lunch Break			

14:00-14:45	72. Delivering the promise of ODF interoperability	110. Contributing to OpenOffice.org as a company	99. New Features and Future Development in Calc and Chart	14. OpenOffice.org Certification Project
15:00-15:45	67. OpenOffice.org Interoperability with Microsoft Office through ODF	138. Deploying OO.org in small and large companies	129. What's cooking in the Writer project?	145. A sustainable model for high quality open-source training

	Break			

16:15-17:00	66. ODF/UOF Interop:Lessons Learned in RedOffice	97. OpenOffice.org on netbooks	94. Improvements to the OOo release engineering process	11. OpenOffice.org in the Italian Vocational Training of South Tyrol
17:15-18:00	117. Interoperability best practices in Symphony development	80. OpenOffice.org Portable - Take your office with you	103. Installation and Packaging in Presence and Future	68. Free Software diffusion in an university : Five year experiment
18:15-19:00	79. Panel Session: The State of ODF	4. Introducing the OpenOfficeMouse	130. Split OpenOffice.org build	146. FLOSS Philosophy and Digital Citizenship

19:30-	Town Visit and Dinner			

Key:	ODF	Community	Developer	Italian / English

	Main Conference				OOo Development
	Centro studi	*Palazzo dei Sette - Governatore*	*Palazzo dei Sette - Capriati*	*Palazzo del Popolo - Sala Etrusca*	*Palazzo del Popolo - Sala dei 400*
09:00-09:45	28. Achievement and challenges in Calc	22. "Normal" office suite in terms of the ordinary user	23. OpenOffice.org, Windows and startup performance - past, present and future	35. Documenting OpenOffice.org	147. OpenOffice.org Macros & Extensions
10:00-10:45	60. An Approach to Solve Occasional Memory Corruption Problem	108. Apply Persona in Design and Development	102. I'm Waiting for My App (to start up)	69. The ways to get documentation in the future	
	Break				
11:15-12:00	15. ODFKit: The common ODF processing library	109. Getting usagetracking data, technical and security aspects and a look in the fut	37. Using Benchmark System to Trace OpenOffice.org Performance	127. How Many Languages Does OpenOffice.org Speak?	
12:15-13:00	18. LPOD, a library to extend ODF ecosystem	39. Insight into RedOffice4.5 - Exploring Its Future	98. Performance Improvements in Calc	63. OOo translation - Best practices	
	Lunch Break				
14:00-14:45	126. ODF on the Server: ODFDOM - Present, Past and Future	85. User Experience Overview of IBM Lotus Symphony	38. Performance of XML-based format processing	76. Associazione PLIO: the state of the Italian Native Language Project	148. Extending OpenOffice.org with Java
15:00-15:45	82. The ODF Template Engine : An easy document generation tool built with ODFDOM	140. The SZOMIN08 project: Source Code Quality Analysis of OpenOffice.org	83. Performance Story of Lotus Symphony	61. What are the Brazilians doing?	
	Break				
16:15-17:00	96. Exposing ODF data to web-based mashups	93. UX Workshop I - The role and the methods of user experience in product design	124. QA-Camp	89. How to keep translated OpenOffice.org documents up-to-date the easy way	
17:15-18:00	30. OpenOffice.org can speak using odt2daisy !	92. UX Workshop II - User Experience Done "Live" Based on Expertise and Usage Data		156. BoF – ODF Toolkits – programming anywhere	
18:15-19:00	131. The pragmatic approach to OOXML			21. Extension Localization	
20:00-23:55	*Party*				

Key:	Developer	Dev - UX	Dev - Performance	Documentation	Italian / English
	ODF	QA	QA	Native Lang	

Fri 6th

	Main Conference				OOo and FLOSS in Education
	Centro studi	*Palazzo dei Sette - Governatore*	*Palazzo dei Sette - Capriati*	*Palazzo del Popolo - Sala Etrusca*	*Palazzo del Popolo - Sala dei 400*
09:00-09:45	34. Intelligent Group On Impress	155. A new logo for OpenOffice.org	100. Refine Mutilingual Support with ICU	24. Discussion on a possible future architecture for OpenOffice.org	142. Results of the GSoC 2009 term
10:00-10:45	143. Code your own 3D transition	2. Building Office Automation and Office Innovation through Extensions	86. What's new in spell checker, hyphenation and thesaurus development?	107. Lists and Outline in Writer	55. OOo4Kids : the story
	Break				
11:15-12:00	157. Marketing OOo in 2010	48. Elexis and OpenOffice	78. Extending LanguageTool, a style and grammar checker	16. VBA Where we are and where we are going	150. European Open Source Competence Centre
12:15-13:00	120. SymphonyNext Overview	122. IBM Lotus Symphony programmability story		119. OOEclipse is now talking C++	
	Lunch Break				
14:00-14:45		51. Case study: A document contents/styles checking solution base on Lotus Symphony	44. Integrating OpenOffice in case and document handling system in city of Roedovre,	132. Write your C++ extensions the smart way	149. Community Council Q&A Session

15:00-15:30	***Closing Session***

Key:	Features	Extending OOo	Native Lang	Features	Italian / English
	Community		Extending OOo	Developer
