Todo List

1. high

- **[docs]** More of them. # PH
- **[feedback]** Mail projects@incubator.apache.org with feedback. Please specify a subject starting with '[AltRMI]'. # PH
- **[development]** Fix the Synchronous transport over JMS see TestCase 'SynchronousMessengerTestCase'. # PH
- **[development]** The BCEL proxy generater does not recognise the same asyncronous features as the JavaC one does. # PH
- **[development]** Callback mecnahism overhaul. # PH
- **[development]** Increase the number of implementations of ClientMonitor. Some different Log API using varients might be useful. Some way of chaining two together might be good too - one handles the abends and another the loging. # PH
