Our QA Process

Apache jUDDI Performance
Friday October 1, 2010

Testing Levels

- Unit tests
  - Functionality
  - Regression of components
- Integration tests
  - System level functionality
  - Regression across components
- QA tests
  - Long running and repetitive, simulating real user load (memory leaks, performance)

Testing Support

For the QA level testing we received support from:

- Xceptance: http://www.xceptance.com/ for both the XLT product and the development of the test suite.
- GQP : http://www.gqpartners.com/ for large scale performance testing. GQP offers '*OnDemand Performance Analysis*'. For the final performance report see http://tinyurl.com/38jpc7n.
