1 System Requirements.....	2
----------------------------	---

1. System Requirements

The latest Lucene release has the following minimum requirements:

- Java 1.5.x or greater.
- ANT 1.7.0 or greater.
- JUnit 3.8.1 if you wish to run the unit tests.
- CPU, Disk and Memory requirements are based on the many choices made in implementing Mahout (document size, number of documents, and number of hits retrieved to name a few.)
