

Using Apache Alexandria for Creative Open Source/Java Code Management

Kevin Burton
burton@apache.com

What is Alexandria

- Source code publication
- Javadoc integration
- JXR (more on this later)
- CVS revision publication
- Documentation integration
- XML based configuration
- Ant driven
- Download management
- Mailing list management
- Extensions
- CVSWeb pointers
- How can I use Alexandria?
- Project management and knowledge acquisition for multiple OSS projects.

JXR

- Linking of code together
- CVS linking
- Javadoc linking
- Highlighting
- Download

XML Javadoc Doclet

- Javadoc -> PDF, etc
- Javadoc -> XHTML
- Javadoc/JXR integration. IE view/download source from Javadoc
