I was voted to be committer.

Now what?

Using Apache Software?

"Yonik's Law of Patches" ...

A half-baked patch in Jira, with no documentation, no tests and no backwards compatibility is better than no patch at all.

Infrastructure

svn commit access to your project

username@apache.org – forward mail to your account

ssh access to people.apache.org

http://people.apache.org/~username

Depends on your project:

- get access to continuous integration (e.g. jenkins)
- get elevated privileges in JIRA project

Stays the same: Your JIRA/Bugzilla account itself, wiki accounts etc.
