

Incremental  
Updates

Historical Data  
(MapReduce  
Output)

Merge

Application

```
graph LR; A[Incremental Updates] --> C(( )); B[Historical Data (MapReduce Output)] --> C; C -- Merge --> D[Application];
```

The diagram illustrates a data processing pipeline. On the left, two rectangular boxes are stacked vertically. The top box is labeled 'Incremental Updates' and the bottom box is labeled 'Historical Data (MapReduce Output)'. Lines from the right side of these two boxes converge into a triangular shape. This triangle is labeled 'Merge'. A single line extends from the rightmost point of the triangle to a rectangular box on the right labeled 'Application'.
