**November 2 - 6**

Marriott Oakland City Center  
Oakland, California

Sponsors:

2009 marks the 10th anniversary of the ASF. ApacheCon will be a unique and exciting celebration of ten years of great technology, the evolution of an amazing community, and a look at the future of Open Source and The Apache Software Foundation.

The conference features a full schedule, including many **FREE** events, along with inside looks at some of the ASF's most popular established projects, as well as cutting-edge technologies and industry topics that include:

- ★ Web servers and servlet containers: Apache HTTP Server and Tomcat
- ★ Cloud computing frameworks/tools: Hadoop, Lucene, and Solr
- ★ OSGi-based development: Felix and ServiceMix
- ★ Enterprise Web Services and SOA frameworks: CXF, Tuscany, ActiveMQ, OFBiz and Camel
- ★ Databases, content management and support technologies: CouchDB and WebDAV
- ★ Web application frameworks and build automation models: Sling, Wicket, and Maven
- ★ Business and community issues such as Open Source licensing, business models, documentation, and collaborative development
- ★ A big blow-out Anniversary Party and Reception ... and much more!

**Join us at ApacheCon to usher in the next decade of "The Apache Way"**
