12/2005 - OJB 1.0.4 released

Contains bug fixes and new features. For more details see [release-notes](#).

11/2005 - Work for OJB 1.x started

The 1.x release of OJB will be a big step forward in usability and integration in existing frameworks (like Spring).

08/2005 - Linguine Maps supports OJB

[Linguine Maps](#) is an open-source (LGPL, Java 1.4+) utility that will automatically produce easy to read UML-style entity-relation diagrams from OJB mapping files.
