Current Situation:
* OpenOffice.org 1.1
development happens on
mws_srx644 branch
* only very few work (nearly no
work happens on HEAD.

* all Ooo 1.1 changes would
have to be joined to HEAD for
2.0 development.

What will we do:
* OpenOffice.org 1.1
development branch will be
moved to HEAD
* only Ooo 1.1 development
will happen on HEAD

* it has to be reviewed, if any
work has to be joined to HEAD
(dead x<->). the review already
has been made for most
modules.

# OpenOffice.org branches in the future

OpenOffice.org 2.0

OpenOffice.org 1.1

/main (HEAD)

The Future
* Once OpenOffice.org 1.1 will come close to release and development for 2.0 will integrated from child workspaces back, a Ooo1.1 branch will be created.
*  Ooo 2.0 development will happen on HEAD

* conclusion: HEAD will always represent the latest (stable) development version
